MESSAGE: DOE Web Team, Dear Sirs , I am very upset with our Gov. we do things backwards, we should not approve nuclear waste hauling of any kind, our trains derail trucks have far to many wreacks, now we have terrorism, to use all this waste against us and our children, also our grandchildren. I dont want this traveling through Missouri, our trains have wreacks, our roads are under construction, maybe this is why, so you can haul this nuclear waste in missouri find a way to deal with this waste in each state at the sites. dont take chances with our lives and our future. I have never wrote any letters to our Gov. before but I am being to think we some some stay at home Mothers to tell you that our future is in our children, and some day becuse of waste the movies will come true, no place on earth to grow food, or have clean water .Where does your children live? Thank you Sandra Robbins
